

Cleveland FSDO FAAS Team presents:

# **NOBPA Monthly Meeting Aircraft Weight balance and performance**

Mike Lorentz, FAASTeam member will present a program on Aircraft Weight and Balance. We will discuss aircraft loading graphs, performance charts, aircraft limitations and aircraft weight. This course is intended to refresh everyone on the use of those tools to fine tune your flight planning. This presentation will also give WINGS credit for the difficult to obtain Basic Knowledge 2 section. This may help some of you complete the basic tab and get your flight review certificate.

**Directions:** Please join us with Zoom. You must pre-register with the following link  
Join Zoom Meeting
